

Custom Home Options (sample)

To assist you in customizing your home the following list provides many, but not all examples of custom home options. Please mark any of the options you are interested in or have questions about. If you do not understand something mark it for an explanation. Please consider these items at this time, changes after construction has begun are more costly and time consuming.

This is only a sample of one of the many topics included on our option sheet, which we use to develop your plans and construction specifications.

Plumbing

- Add second shower head or multi shower heads in master shower
- Move shower valves close to the shower entry
